GOAL SETTING

- 1. "Goals are dreams with deadlines." Diana Scharf Hunt
- 2. "The real pleasure of one's life is the devotion to a great objective of one's consideration." George Bernard Shaw
- 3. "The important thing in life is to have a great aim, and the determination to attain it." Goethe
- 4. "Goals determine what you're going to be." Julius Erving
- 5. "The higher goal a person pursues, the quicker his ability develops, and the more beneficial he will become to the society. I believe for sure that this is also a truth." Maksim Gorky
- 6. "There are people who put their dreams in a little box and say, Yes, I've got dreams, of course I've got dreams. Then they put the box away and bring it out once in a while to look in it, and yep, they're still there." Erna Bombeck
- 7. "All our dreams can come true --if we have the courage to pursue them." Walt Disney
- 8. "The future belongs to those who believe in the beauty of their dreams." Eleanor Roosevelt
- 9. "The people who get on in this world are the people who get up and look for the circumstances they want and if they can't find them, make them." George Bernard Shaw
- 10. "One's philosophy is not the best expressed in words; it is expressed in the choices one makes. In the long run, we shape our lives and we shape ourselves. The process never ends until we die. And, the choices we make are ultimately our own responsibility." Eleanor Roosevelt
- 11. "Obstacles are those frightful things you see when you take your eyes off your goal." Henry Ford
- 12. "Fear melts when you take action towards a goal you really want." Robert Allen
- 13. "An average person with average talents and ambition and average education, can outstrip the most brilliant genius in our society, if that person has clear, focused goals." Mary Kay Ash
- 14. "Our goals can only be reached through a vehicle of a plan, in which we must fervently believe, and upon which we must vigorously act. There is no other route to success." Stephen A. Brennan
- 15. "If you want to be happy, set a goal that commands your thoughts, liberates your energy and inspires your hopes." -Andrew Carnegie
- 16. "What's talked about is a dream, What's envisioned is exciting, What's planned become possible, What's scheduled is real." Anthony Robbins
- 17. "Goals are not only absolutely necessary to motivate us. They are essential to really keep us alive." Robert H. Schuller
- 18. "Look to the future, because that is where you'll spend the rest of your life." George Burns
- 19. "Living without an aim is like sailing without a compass." Dumas goal setting quotes
- 20. "Man, with no objective, will soon possess nothing. Having an objective, even low, is better than having none." Carlisle goal setting quotes

LEARNER PERSISTENCE IN THE ADULT EDUCATION CLASSROOM

Persistence Definitions from NCSALL

Quality of Service: High-quality instructional and program practices and structures that are driven by the needs of the learners and that are engaging, supportive, and relevant to their daily lives.

- Elicit information from students.
- Use student-centered instruction techniques; do learner logs.
- Make sure all activities are relevant; do the application activities and projects.
- Ask questions that encourage critical thinking.
- Set goals with students.
- Do activities that help students think of future educational and vocational opportunities.

Safety: An environment in which learners feel that it is OK to make mistakes, they are respected for what they know, and they are equally valued in the program, regardless of race, gender, class, sexual orientation, ability, etc.

- Orientation to the Program: Developing a thoughtful, formal process for helping learners understand what the program and class are all about.
- Go over the objectives.
- Go over learner logs.
- Go over the structure of the book.

Community: An environment among learners, staff, and the larger community in which learners feel that they are not alone, that they are needed by others, and that they can work together to solve problems.

- Do group work activities.
- Do projects.
- Use student-centered teaching techniques.

Self-Efficacy: A belief by learners that they can be successful when attempting new activities as learners, workers, family members, and members of their communities.

- Remind yourself regularly to the Stand Out Mission Statement.
- See that students have meaningful success through activities that challenge them to succeed.

Clarity of Purpose: The realistic and meaningful goals learners have set for themselves and an understanding of how education will help them achieve such goals.

- Students know at the beginning of class of the objectives for each lesson and evaluate themselves regularly.
- Make sure you don't skip units that deal with personal, academic, and career goals.
- Students keep track of their learning and evaluate their goals through learner logs.

CRITICAL THINKING

"Critical thinking is the intellectually disciplined process of actively and skillfully conceptualizing, applying, analyzing, synthesizing, and/or evaluating information gathered from, or generated by, observation, experience, reflection, reasoning, or communication, as a guide to belief and action..." Michael Scriven & Richard Paul (1987)

WEATHER LESSON - TECHNOLOGY

Sample Lesson Plan - Beginning ESL

Warm-up	Ask students about the weather today. Is it hot or cold? Make gestures to help them understand hot and cold. If you have a world map point to	
	places on the map and ask opinions about whether it is hot or cold in different countries.	
Introduction	Write the word <i>weather</i> on the board. Today we are going to talk about weather and find out about weather in our countries.	
Presentation	Open the Smartboard lesson to page 1. Drill the students briefly on the six vocabulary words. Point to each picture and ask them "How's the weather?" Make sure that students pronounce each word correctly. Write "How's the weather?" on the board. Show the class how to drag the appropriate words to the pictures. Ask individuals to drag pictures. Go to the second page and teach <i>high</i> and <i>low</i> . Ask individual students to drag the appropriate pictures into the chart. Pass out the handout with the weather in various places around the world. (The handout for Beginning low has the information while the handout for Beginning hig is blank for dictation). Write the following dialog on the board and prepare students for the first practice.	
	A: How's the weather in Tokyo, Japan? B: It's sunny and 80 degrees.	
Practice 1	For Beginning High: Give the students a blank chart and dictate information to put in and then have them practice the dialog. For Beginning Low, ask students in pairs to practice the dialog using the information from the handout.	
Evaluation 1	Observe	
Presentation 2	Show the students how to navigate <i>Yahoo Weather</i> by opening it on the Smartboard: weather.yahoo.com. Find the current weather for the city in which the school resides and with the students complete the info for the city on the handout.	
Practice 2	Assign each group in the class one city (on the handout) and ask them to find the weather and the highs and lows on the Smartboard or on computers around the room.	
F 1	Ask the students to repeat practice 1 with the new information in pairs.	
Evaluation	Observe and help	
Application	Ask groups to predict the weather in their countries and then check to see what it really is on the Internet.
